Welcome to CLARION ORGANICS LIMITED

We are Manufacturers of Pharmaceutical Intermediates & fine chemicals in India. Ours is a multi process plant. We perform a very wide range of reactions. Equipped with a state of art machinery & utilities, it is a multi purpose plant. The Company offers major intermediates for the International Pharmaceutical & Perfumery Industry. The Company also undertakes development and Bulk Manufacturing of Intermediates. On Special requests Contract Manufacturing is undertaken. The plant is situated in Central India at Tumsar, District Bhandara, in the state of Maharastra, about 80 km. North East of the city of Nagpur. It is well laid out in an area of 14 Acres, which is full of greenery due to the lush green gardens & trees covering the area. The plant has been laid out in an environment friendly manner. The Company undertakes Custom Synthesis and Contract Manufacturing. These processes are carried out under exclusive agreements with customers around the world. It is equipped with a state of art effluent treatment plant. The plant conforms to all FDA & Effluent Treatment norms as required by various bodies, National & International, regulating manufacturing of Drugs & Chemicals.
