Welcome to Chromato Scientific Pvt. Ltd.

Chromato Scientific™ is young and dynamic research-based organization which specialises in custom synthesis and primarily focuses on manufacturing domain of pharmaceutical drug impurities and chemical Nitrosamine Impurities. Chromato Scientific™ was founded in year 2018 by a group of highly skilled and experienced pharmaceutical experts, scientists and management professionals. Our streamlined business approach is driven by goal to provide our customers, the highest quality products and services. With an access to state-of-the-art infrastructure and equipment, we have perfect techniques for the synthesis and analysis of impurities, metabolites and starting materials for your pre-clinical and clinical research. We strive to deliver the level of service that exceeds the expectations of our customers.
