Welcome to Fab Biotech Pvt. Ltd

A division Of Fab Biotech Pvt. Ltd.(ISO 9001:2015 Certified), began its functioning in the year 2013, as manufacturers and suppliers of this highly commendable range of Pharmaceutical Medicines. Products like Pharmaceutical Injections, Pharmaceutical Dry Injections and Pharma Injectables. It is ISO 9001 certified pharma critical care franchise company having super specialty products manufactured under WHO GMP certified plants. We have the latest & innovative DCGI (Drug Controller General of India) approved products . We are focused on creating business avenues through trading of pharmaceutical products and making available the quality products to our customers that generate sustainable revenues and growth of the company. If you really want to start an Injection franchise business, then it is absolutely essential to choose the reliable PCD pharmacy franchise company. One of the emerging business sectors in which people invest in a large number is Pharmacy Franchise. It’s quite hard to establish an identity in this competitive world, Pharmacy Franchise helps you grow in the right way and become the PCD franchise leader in a short time frame. All of our company’s hired members have years of experience working in the respective field. They perform every job with the utmost care.
