## Welcome to Saarathi Healthcare Pvt. Ltd.

Saarathi Healthcare Private Ltd is a dynamic Healthcare Company with a vision to democratize healthcare world over, the company has always worked towards filling the gaps in healthcare deliverables. With a Vision to “Democratize Healthcare World Over” Saarathi partners with various stakeholders like patients, doctors, paramedics, retailers in the healthcare chain. Our focus on patient-centric disease management translates to impacting lives of over 1 lakhs patients every month. The amalgamation of understanding the core subject and needs of healthcare from past experience along with a passionate team makes Saarathi unique. Saarathi Healthcare Private Ltd is a dynamic Healthcare Company established in 2008 (Mumbai), by Founder and Director Ms. Ranjeeta Vinil. Founded with a vision to democratize healthcare world over, the company has always worked towards filling the gaps in healthcare deliverables. Starting as a Patient-centric Disease Management Company, Saarathi conceptualized and launched one of the first disease management programs in India way back in 2008. Over the years the concept has gained prevalence and has managed to change healthcare deliverables in the country. A paradigm shift in healthcare delivery – from episodic care to preventive care and chronic disease management. Saarathi today has evolved into a fully integrated healthcare company with professionals from the field of pharmaceuticals, healthcare, technology, advertisement and communication to deliver customized and innovative solutions for better healthcare outcomes. Today, we are a trusted name in the industry with a reputation for

consistently delivering excellence and exceeding expectations. Since our inception in 2008, we have grown from strength to strength, earning accolades and awards for the work that we do. We have been recognized for our entrepreneurial spirit, and acknowledged for our passion to improve access to healthcare in India. In just 8 years, we have made our mark in India and have successfully entered into some key international markets.
