Welcome to Sanmour

Encouraged by the experience of working with several pharma customers since 1999. expanded in the year 2005 and emerged as It has been now evolved in to a full fledged pharma contract R & D company with its own full fledged research and process development facility. Thus is now fully geared up to provide top class value and services to pharma majors globally. was founded by RAM GULWADY B. PHARM (HONS) from BITS Pilani in the year 1979, currently the chief executive. With around 20+ years of pharmaceutical research background in several major indian pharmaceutical companies, the company in the last 5 years has catered to several of its clientele in developing technology. That is very advantageous to the customer companies in establishing their products in this “Niche” area.
