Welcome to Shri Bharadi Ayurvedic Pharmaceuticals

Nature god has its own values. Everything in it is interrelated to eachother. Ayurveda is a herbal medicinal therapy. Adhyatma is a spirit of nature depicting some of its important rules. Science is an instrument to enact some values. We have combined all of three together for the benefit of mankind single omission will be fruitless. We started Shri Bharadi Ayurvedic Pharmaceuticals as a partnership firm. Soon it will be a private Ltd. Enterprise. Our aim is to give exclusive things to the people of India and all over the world. All medicines are purely herbal. They have ‘Adhyatma’ in it. Drugs are manufactured in a cleanest environment, mimicking sterile atmosphere. People involved in this company also are honest, truthloving, hardworking, and more important all have an ‘Adhyatma’ as base of life
