Welcome to SPC Healthcare Pvt. Ltd.

Our goal at SPC Healthcare is to provide a more complete and holistic level of care to our patients using forward-thinking, innovative treatment solutions. We are WHO-GMP certified suppliers of Pharmaceutical, Nutraceutical, and Ayurvedic drugs in the form of capsules, tablets, ointments, and powder. Since its launch in 2018, the SPC Healthcare banner has had a significant presence in Punjab, as well as in Haryana, UP and Bihar. In a market dominated by large chain stores, SPC Healthcare products are independently owned by community–focused pharmacists who care about the well-being of their patients. Our mission is to promote healthy lifestyle choices – to prevent chronic medical conditions from developing and to delay the progression of conditions already present. We believe that proper support and coaching can help individuals make simple lifestyle changes to improve their health. Change is not always easy and that is why we are here to help individuals along the path to improved health. We want to be part of a patient's health, not just their sickness. We focus on 360 degrees of wellness for our patients offering more than just a prescription filling service, providing as many effective products that are natural, or free from toxic additives, colours, or preservatives as possible.
