WHY CHOOSE US

Ayurveda 100% Natural

Ayurveda, or ayurvedic medicine, is a healthy lifestyle system that people in India have used for more than 5,000 years. Ayurveda emphasizes good health and prevention and treatment of illness through lifestyle practices (such as massage, meditation, yoga, and dietary changes) and the use of herbal remedies.

Overall Healthy

Ayurvedic medicine is holistic, which means viewing the body and mind as a whole. Ayurveda not only treats a person's physical complaints, but it also changes lifestyle practices to help maintain or improve health.

Elements of Nature

According to ayurveda, the five elements of nature (space, air, fire, water, earth) combine in the body as three components (doshas) known as Vatta, Pitta, and Kapha. These doshas relate closely to the basic elements of nature and to specific functions of the body. A balance of these doshas is thought to be required for optimal health.

Herbal medicines

An herb is a plant or plant part used for its scent, flavor, or therapeutic properties. Herbal medicines are one type of dietary supplement. They are sold as tablets, capsules, powders, teas, extracts, and fresh or dried plants. People use herbal medicines to try to maintain or improve their health.

OUR VISION

To serve the Humanity with most safe Ayurvedic products based on the basic Ayurvedic Principles in combination with modern Bio-technological techniques, to provide the most Potent, Sustainable & Effective Ayurvedic/Herbal Formulations with aim for Global Wellness through Our Pure Herbal Products worldwide.

Product Quality Standards

Many people believe that products labeled 'Natural' are always safe and good for them. This is not necessarily true. Herbal medicines do not have to go through the testing that drugs do. Some herbs, such as comfrey and ephedra, can cause serious harm. Some herbs can interact with prescription or over-the-counter medicines. Improve health

ABOUT OUR team

Sanjivan Anusandhan Pvt Ltd the legacy of our forefathers that strives us to move one step ahead in our journey. At the core of our unit, we have a team of hardworking, passionate professionals. We aimed at utilising modern techniques to manufacture ancient ayurvedic medicines.
