Welcome to Abhilash Chemicals and Pharmaceuticals Pvt. ltd.

Founded in 1990 for the development and manufacturing of speciality and fine chemical manufacturing Our group has grown into a globally competitive producer of Pharmaceuticals and Speciality Chemicals. Our main interests and commitments are currently focused around Pharmaceutical manufacturing. Our flagship company, Abhilash Chemicals and Pharmaceuticals Pvt Ltd (ACPL) is a renowned producer of quality pharmaceutical ingredients operating in over 30 global markets spanning the Indian Sub-continent, Far East, MENA region, South America and Europe. ACPL is a ‘global scale’ producer of Metformin hydrochloride (API) with dedicated CEP / ISO / GMP approved facilities having market leadership and a well-established status as ‘supplier of choice’ with hundreds of customers worldwide. Our customers include some of the leading Pharmaceutical companies in the regions we operate in. Abhilash Life Sciences LLP (ALS) launched in 2017 is a separate business entity focused on production of Pharmaceutical finished dosage forms for Global markets. A World class manufacturing facility near Madurai, India has recently been commissioned and establishes a platform for the company to evolve into a integrated, globally significant player in the Pharmaceutical manufacturing space. ALS will see a very exciting first few years of operation

involving synergistic partnerships, international facility approvals and commencement of worldwide commercial operations.
