Welcome To Aester Remedies

We have developed a sound infrastructure unit that facilitates us in formulating wide range of pharmaceutical products adhering to industry standards. Equipped with advanced machines and equipments, our unit also help us in meeting bulk requirements of our clients. Entire unit is properly segregated into various divisions, including quality control, research & development, manufacturing and other departments, which assist us in customizing the products based on the specification put forth by our clients. Our state-of-the-art quality control laboratory, assures us in delivering highest quality products. Owing to our total quality management policy, we have gained WHO-GMP certification for our plant.
