## Welcome To Apkavit Lifesciences Pvt. Ltd.

APKAVIT LIFESCIENCES has carved out a distinct place of its own in the high growth Indian pharmaspace. The company is focused on dedicated manufacturing facility for specialized pharmaceutical products and is now effectively harnessing global opportunities to cement its international presence. The group has a strong presence in the domestic market and plans to expand in the highly regulated international markets too. Constructing tomorrow's businesses while simultaneously sustaining excellence in today's world, demands a delicate balance. It is thus extremely important for the organisation to excel in customer satisfaction. We ensure that our products reach the market in the shortest possible time with the highest level of quality. The company gets its products manufactures from Himachal Pradesh, which is an excise free zone. We offer franchisee on monopoly basis nationwide. With a wide product range, we have franchisees appointed in almost every state. After years of satisfaction, trust and support of our customers, the group has established itself as strong brand in the market. We strive to provide total commitment to healthcare to achieve leadership in chosen markets. With the latest formulations in the medical world, we are also offering the most innovative combinations at reasonable prices to fulfill the dream of healthier lives. We also provide attractive packaging and promotional materials based on the customer's requirements. We are also engaged in third party manufacturing for tablets, capsules, injections, ointments, nasal drops, liquids, dry syrups, protein powders and many more entities at marginal prices. We provide you various services including formulation, designing, printing and labeling under one roof. We ensure to provide you the best services at minimum possible time. We adjust and adapt

to the changing needs of our customers and remain dedicated in our efforts to serve them to the best of our ability. The company operates in total compliance with ISO-GMP norms. These norms controlled by superior high-tech quality control labs where various physical, chemical & microbiological tests are conducted to guarantee optimum quality of the products which enabled us to obtain accreditation. We offer great cost advantage to clients.
