Welcome To Ashish Life Science

Ashish Life Science (ALS), is one of the leading CMO (Contract Manufacturing Organization) with clients all over the globe. We started our manufacturing operations in 2002 with the intent of providing affordable and high-quality veterinary formulations for all species of animals. ALS manufactures a wide array of veterinary dosage forms in order to meet all the therapeutic needs of the animals. We do take pride in sharing that we are the first Animal health company from India to receive EU GMP and APVMA approval for our facility. ALS has been meeting its demand across 50+ countries globally including the Indian market.
