Welcome to Billion Biotech

Billion Biotech, founded in 2024, has started its journey as an emerging and fast-paced third-party manufacturer for the pharmaceutical industry. The company is known for making high-quality medicines and delivering them on time. That is precisely why Billion Biotech has become one of the trusted names, especially in the case of producing very complex and niche pharmaceutical products. Billion Biotech has a wide range of products, covering almost all lines for different clients. Strong fame for quality and reliability has always been close to their heart. This has been done over the past five years regularly placing them among the Top 10 US DMF filers with the US FDA. This means they are highly active in filing their medicines to be approved in the US. It was often one of the first to bring new medicines to the market. This brings important medicines to the use of more people throughout the world. The company places a premium on introducing innovation, speed, and safety into products. It makes all possible efforts to comply with all the global quality standards. It also collaborates with other companies to help each other grow.
