Welcome To Biosols India Pvt Ltd

Biosols was founded in the year 2000. It was setup as a family business which has been flourishing for the past 18 years due to the values and focus on quality. Our wide range of skincare and wellness products are manufactured at our state of the art facility where a highly skilled Research & Development team develops new and innovative solutions for the present day skin and wellness issues. Most of these products are manufactured using a standard process, but we do special customization of products on client requirements. Our huge 3000+clientele, which includes International Hotels and Spas suggests that quality and uniformity of our products always surpasses clients Expectations which leads to 100% clients satisfaction and permanent customer
