Welcome To Bonum Medelae Pvt. Ltd.

Nutraceutical & Phytoceuticals is the new buzz word in the pharmaceutical arena as it seems to hold a great future and promising growth which will drive the industry in future. It is not something new in the pharmaceutical industry, and even in India & not of in this world. Nutraceuticals are being sold in India from the time industry came into being, in fact few Indian giants have their own Nutraceutical divisions, whereas phytoceuticals are relatively new to Indian pharma industry and are being promoted from last few years only, but the way they are sold and being prescribed are different from what we do at Bonum Medelae Pvt. Ltd.aim at. At Bonum Medelae, we want to give Nutraceutical and Phytoceuticals an image and focus which nobody till the date has given, as they hold great therapeutic potential. Year after year new drugs from Multinational Giants are failing and the drugs which were approved in the recent past are also being withdrawn in almost all the therapeutic segments. On the other hand molecular science is evolving fast and so as our understanding of the phytochemicals and their mode of action in specific diseases. Hence we want to focus on Nutraceuticals and Phytoceuticals so as to develop innovative therapies for the rampant chronic diseases in the society and hence free the ailing society, thus providing Good Health to All i.e. “Sarve Santu Niramaya”.
