Welcome to Camus Pharma

Camus was established in year 1997, as a pharmaceutical trading company. With time we have grown into a full fledged manufacturing company, having manufacturing bases at six different locations in India. While the trading division over the years has got stronger, the focus is equally on manufacturing of high value, innovative and niche products. Apart from our business presence in India, Russia, CIS and China, we plan to expand in regulated markets in near future. Our core segments are asthma, COPD, tuberculosis, ARV, oncology, anti-biotic and biotech products.
