Welcome to CATAPHARMA

the Group has established itself as a leading supplier in the Indian market for various derivatives of piperazine, methylenedioxybenzene and benzylamine. A list of products will give an overview of the product range. The Group has the distinction of being the only manufacturer in India for many of the products. In the past few years, the Group succeeded in exporting half of its production to Europe and China. Any enquiries for developing processes/ products based on catalytic hydrogenation and air oxidation, N-alkylation, O-alkylation, nitrosation, low-temperature nitration, cyanoethylation or ethoxylation are accepted with great enthusiasm and confidence to deliver the products.
