Welcome to Chemex Global

Chemex Global, located in Guwahati, Assam, started its journey by manufacturing APIs and Pharmaceutical Intermediates. We are a subsidiary of Jain Group Ventures, a company with over 30 years of experience in the Pharmaceutical Supply Chain Industry. We are committed to providing our customers with the highest quality products and services. We have our own range of Novel Oral Anticoagulant, Anti-diabetic, Antiretroviral and cardio vascular pharmaceutical API products with the assurance of quality and effectiveness. Adapting to the changing needs of the global market, Chemex Global's quality products are designed to accentuate optimum performance in pharmaceutical applications. Also, Chemex Global is one of the major pharmaceutical API manufacturers in India with an extensive portfolio that includes several Gliptin molecules. Our state-of-the-art manufacturing facility is equipped with the latest technologies and built as per world-class standards and our team of experienced professionals is dedicated to ensuring the quality of our products. We are committed to research-based indigenous solutions and have established one of the largest integrated R&D labs in Eastern India. We are proud to be the first API Manufacturing Unit in the North-eastern region of India and one of the biggest capacities units in the entire Eastern India. While we are dedicated to putting Assam on the World Pharma Map, our strategic location further helps to cater to all the formulation plants of Sikkim, Guwahati, and the entire South East Asian region. We strive to become one of the most trusted API pharma companies in India through our quality products of APIs and Intermediates which are used in the formulation of medical drugs.
