Welcome to Chirayu Pharmaceuticals

Chirayu Pharmaceuticals is an ISO 9001:2015, FSSAI and GMP certified professional business conglomerate, committed to producing high quality herbal and health care products. We manufacture more than 400 patented and pharmacopeial ayurvedic medicines. Our tryst with ‘Ayurveda’ has a long and reputed history dating back to 1927, when our forefather Vaidya Krishna Das Ji Chhaparwal applied his expertise in ayurvedic treatments and became the court physician/Vaidya of the royal Scindia family of Gwalior state in India. The intricate knowledge of herbal medicines and remedies were inherited by Vaidya Shri Krishna Das Ji Chhaparwal who successfully passed on to his son Dr Ram Krishna Chhaparwal. Dr Chhaparwal, equipped with a degree in modern medicine and a sound knowledge of Ayurveda, laid the inception of Chirayu Pharmaceuticals in 1990 (check), a company focused on producing world class herbal products with well researched and proven scientific effects. Our company then expanded our manufacturing capacity and sales footprint on a pan India basis under the agile leadership of Dr Chhaparwal’s sons- Shri Manmohan Chhaparwal and Shri Jagmohan Chhaparwal.
