Welcome to Coral Drugs Pvt. Ltd.

To provide effective, safe, and high-quality active drug ingredients to the pharmaceutical industry by pursuing our love of science and our commitment to this world Coral Drugs, headquartered in New Delhi, India, is an integrated, research-based international pharmaceutical company that produces a wide range of high-quality, affordable, active drug ingredients (API's). Coral has made significant progress as an independent API manufacturing company. We manufacture our API's across multiple therapeutic segments including antineoplastic, steroids, non-steroids, hormones and beta-agonists. Having clients all over the world, we assume a great level of corporate responsibility. Adhering to

quality production standards across the globe, Coral Drugs takes pride in being a truly international supplier of high-quality pharmaceuticals. Our love of science is demonstrated by our goal to maximize the production of API's by discovering new and safer ways to manufacture without compromising quality. With a team of dedicated scientists, Coral's R&D department provides efficient processes for off-patent products. By constantly evaluating new drugs for production, we demonstrate our ability to meet challenges in different pharmaceutical industry segments.
