Welcome To Dr. Sabharwal's Wound Care

Vaidya Raj Sushen Organic Herbals was formed to revive the old tradition of herbal medicines in India & make available the ancient reliable herbs like Sanjivani Buti to the common man. Our aim is to put our all efforts to see that we do not feed the public the insecticides & the preservatives but the pure herbs. This division has got constructed its new building in an area of about 5,000 square meters in a pollution free area at the foot of Himalayas. The new construction has been done as per latest W.H.O. G.M.P. norms. The building is ultra modern. he men behind this prestigious project are two devoted scientists, Dr. A.R. Sabharwal & Manish Sabharwa. Dr. A.R. Sabharwal, MBBS, DMRE, LLB who is having more than 50 years experience in the line of medicines. He is a great lover of nature. He has grown all herbs in his own house, factory & farming land & will try to feed all the manufacturing of required herbs through his own production. The second man is Manish Sabharwal, B.A., B.Sc., LLB having two decades experience of this line. He has many research products to his credit. He got patented his research products also. The organization has its own R & D Lab & Testing Lab. All the incoming raw materials are identified & tested. At all the stages of manufacturing, inprocess samples are taken & tested by the Analytical Chemist, to guide the manufacturing staff. Each batch is tested fully before release the product for marketing. We are very particular for the heavy metal contents of the finished products & all products are tested for their heavy metal contents.
