Welcome to Ensens

Welcome to Ensens, where scent meets soul and tradition meets innovation. As siblings-in-law duo, Varsha and Shrey, embarked on a journey with a simple yet powerful mission: to redefine the Perfumery House scene of Southern India. Breaking the stereotype that exceptional fragrances are exclusive to the Bigger Brand and fragrances house abroad, we are here to carve our mark in the industry. At Ensens, inclusivity, boldness, and fun aren't just words; they're the essence of our brand. We believe that fragrances have no gender, and our scents are crafted to break free from traditional narratives, embracing all who wish to indulge in the art of olfactory expression. Our passion extends beyond off-the-shelf offerings. We specialize in the craft of custom perfumes, offering a truly unique experience where anyone can create their own signature scent. It's our way of inviting you to become a part of the Ensens story, to blend your essence with ours and craft something truly extraordinary.
