Welcome to Ethidrugs Research Lab Pvt. Ltd.

Ethidrugs Research Lab Private Limited was established in 1993 and evolved as one of the most trusted pharmaceutical companies in south India. We are leading manufacturers of Pharmaceutical formulations and recognized in the market, due to our ability to manufacture, export, and supply a diverse and qualitative range of Pharmaceutical Syrup, Pharmaceutical Tablets, Pharmaceutical Capsules, Veterinary Medicines, Dietary Supplement, etc. in state-of-art manufacturing by our own units located at Tamilnadu and Pondicherry. Excellent growth has been achieved due to the continuous efforts of its dedicated personal motivations with quality policies and encouraging enthusiasm provided by its valued customers. we have sophisticated own manufacturing unit which is occupied with the latest machinery and has a team of hardworking and talented people in all the operations, starting from raw material procurement till the dispatch of consignments. With 25+ years of experience in serving human healthcare, our experts with thorough industry experience understand the requirement and demands. Moreover, our quality controllers and experts supervise each and every process in order to ensure the production of an impeccable range of products. Our entire workforce operates in coordination with each other as well as customers so as to attain maximum client satisfaction. In addition, we have developed a modern testing lab wherein all the formulated medicines and supplements are thoroughly checked on the basis of well-defined parameters.
