Welcome To Galderma

Just as the skin is a unique system within the human body, dermatology requires specialized knowledge and unique skills. Galderma was founded with the goal of establishing a pharmaceutical company exclusively focused on dermatology. For over 30 years, all our resources have been channeled in a single direction: to provide innovative medical dermatological solutions that meet the needs of patients and physicians with a particular focus on and other steroid-responsive dermatoses, (fungal nail infections) and medical aesthetic and corrective solutions for skin senescence. The skin conditions we treat can have strong psychological and social implications in the everyday lives of our patients. By treating these conditions, we help people

preserve, restore and maintain healthy skin and improve their quality of life. Today, Galderma is a global dermatology company committed to delivering innovative medical solutions to meet the needs of people throughout their lifetime while serving healthcare professionals around the world. The company has 33 wholly-owned affiliates and a worldwide network of distributors, more than 4,500 employees and an extensive product portfolio available in 80 countries
