Welcome ot Gland Pharma

Established in Hyderabad, India in 1978, Gland Pharma has grown over the years from a contract manufacturer [HK1] of small volume liquid parenteral products, to become one of the largest and fastest growing generic injectables manufacturing companies, with a global footprint across 60 countries, including the United States, Europe, Canada, Australia, India and other markets. We operate primarily under a business to business (B2B) model and have an excellent track record in the pharmaceutical research and development, manufacturing and marketing of complex injectables.
