Welcome to GMFC LABS PVT LTD

GMFC Labs Pvt. Ltd. is a pioneer and progressive company established in December 2015. It operates from Vishakhapatnam, India, delivering quality dynamic chemistry product developments and services. It is a company that truly spends its energy on providing efficacious products in the areas of chemical formulations to spearhead all other associated industries of pharmaceuticals, agriculture, and specialty chemicals. GMFC Labs undertakes research and development, merges scientific knowledge and advanced technology to achieve the development of innovative products. The company promises to develop and provide efficient and cost-effective solutions to the specific

requirements of the clients. GMFC Labs pursues continuous innovations with excellence in chemical products as its driving objective. All projects undergo stringent quality standard adherence by its team of trained professionals to ensure the satisfaction of client needs. GMFC Labs emphasizes sustainability; hence all its operations and products are eco-friendly. The offerings would comprise everything from product formulation through testing and regulatory support. GMFC Labs is now a major partner with a growing list of research and research output companies that consider it their preferred partner for reliability in developing affordable chemical products.
