Welcome to GPT Pharmaceutical

GPT Pharmaceuticals Pvt.Ltd was established in the year 2009 by a team of professionals with over decades of experience in the pharmaceutical industry with specialization in the development and manufacture of Pharmaceutical Formulation Intermediates (PFIs) and various modified release oral dosage forms using polymer based advanced Drug Delivery Systems. Controlled drug delivery technology represents one of the most rapidly advancing areas of science contributing to human health care. Such delivery systems offer numerous advantages compared to conventional dosage forms including improved efficacy, reduced toxicity and improved patient compliance and convenience. The Company's forte is in customized

development and manufacturing of Modified Release Pellets and Direct Compressible Granules of various Active Pharmaceutical Ingredients (APIs) including different combination blends in Ready-to-Fill and Ready –to-Compress forms respectively. Honouring committed schedules and offering competitive affordable prices are our core business values. Our manufacturing process undertakes conversion of the active drugs into products suitable for administration. This allows us to experiment with various drug delivery methods and offer a superior quality product due to its more acceptable delivery mechanism. Our manufacturing facility is located in Hyderabad, which is at a distance 40 KM from Hyderabad International Airport.
