Welcome To Group Pharmaceuticals Ltd

Group Pharma has three facilities across India, manufacturing multiple dosage forms and adheres to the highest standards. The facility at Tarapur near Mumbai is specially designed and equipped to manufacture moisture sensitive tablets requiring strict humidity control. Group Pharma was the first company in India to manufacture denture cleansing tablets. Two of our modern manufacturing facilities at Malur in Karnataka (43 km from Bengaluru) are built in compliance with WHO guidelines. These facilities have been set up for the manufacture of toothpaste, gels, creams, syrups and mouthwash. The infrastructure, protocol, documentation and procedures at all our factories comply with WHO's current Good Manufacturing Practices (cGMP).

Our operations include exporting products to over 40 countries. Our facilities are approved by leading Indian and multinational companies for whom we contract manufacture for their domestic as well as international markets.
