Welcome to Health Pride

At Healthpride, we are strongly committed to quality and accuracy from selection of raw material to commercialization process. We are using high grade raw material for producing our products sourced from trusted vendors only. Also, we are only adhering to those plant which use advance engineering standards and latest machinery for manufacturing our products. It is because of our quality standards, we are able to earn a good reputation in domestic market. Each and every product manufactured by us is well tested for quality norms and standards as per market demands. Once quality is assured by our administration team, the medicines are dispatched to domestic market. Our entire range also encompasses Tablets, Oral Liquid, Dry Powder, Capsules,

Injectables, Ointment, Eye & Ear Drops, Ayurvedic Products. Manufactured as per WHO-GMP & ISO 9001 norms, these are assured to have high quality standards. We are commitment to continually improve the effectiveness of established quality management system (QMS) through continual training and development of people involved in business lifecycle. We shall develop a culture of team work and motivate our employees for their full contribution through mutual appreciation, readiness for the improvements and proactive action as well as taking responsibility for quality, health, safety and environment in their daily activities.
