Welcome to Hindustan Antibiotics Limited

Hindustan Antibiotics Limited (HAL), based in Pune, India, is the first government-owned-drug manufacturer under the ownership of Ministry of Chemicals and Fertilizers, Government of India. It was the first government corporation in India to launch a recombinant DNA product, rHU-Erythropoietin (Hemax) in 1993. The government corporation introduced new products like Halpen, Haltax, Hexpan in 2008. Sati-HIV drugs will be produced from September 2009.
