Welcome to Ingenus

In our world-class facilities, we have built a thorough structure of practices that assure the only acceptable result... excellence. From a wide range of oral solids to a growing portfolio of oncology products, we work diligently to bring you the quality you deserve at a fraction of the cost. Since 2010, Ingenus has developed, manufactured and commercialized quality generic medications as cost effective solutions for patients, suppliers and stakeholders across the healthcare continuum. Ingenus has improved patient access, offset healthcare costs and maintained high quality standards that we have become known for. This is the Ingenus difference.
