## Welcome to Ishani Herbals

Keeping in mind the increasing health problems in the society, we have started processing Aloe - Vera and Amala which have tremendous important in Ayurveda. To keep good health along with beauty Ishani Herbals is manufacturing various Amala products & Aloe-Vera products. Aloe is a lily-like, green, and sometimes spiny shrub with very little, if any, stem. It produces approximately 25 fleshy, gray-green leaves in a beautiful rosette display. In Europe, Aloe is used almost exclusively as a digestive aid and laxative. Elsewhere, including the United States, the gel from the inner aloe leaf is a popular ingredient in many skin preparations and cosmetics.
