Welcome To Kapvia Everydayurveda

Kapvia's range of Ghee, Honey, Juices, Teas, Oils and other products all have one common theme -they are selectively sourced, with great emphasis on purity and authenticity. For instance, our Aloe Vera is the best in Rajasthan and extracted within just 4 hours of harvesting. We only source A2 Milk for our Desi Ghee, so that you get more nutrition for every dollop on your roti. Our Wild Honey comes straight from dense forests; unfiltered and unprocessed. Every Kapiva product is carefully sourced with a single objective: to bring it to you just the way Nature created it. We've delivered 1 million + products to over 300,000 customers in the last 1.5 years. Browse our products and become part of the Kapiva lifestyle today!
