Welcome To Krishkare Cosmed LLP

Krishkare is a beauty and wellness brand that aims to enrich lives in the most holistic way possible. Our first belief is that anything we provide should be good for our customers. With a wide variety of eclectic, effective, and unique products, ranging from skin and hair care products to health monitoring systems and slimming belts, we strive to bring affordable, effective care to all segments of society. The beauty segment spans face care, body and bath, and hair care for both men and women. The products are created after research on the actives, to ensure that they are as effective as they claim to be! We aim to use as little chemicals as possible in our products – which is why, you'll find that a lot of the products are 100% natural.
