Welcome To Lord's Homoeopathic Laboratory (P) Ltd

The genesis of Lord's emanates from the era of 1970s when its management was the largest importer and distributor of German Homoeopathic medicines in India. The high cost and logistical hurdles of imported medicines prompted the idea of manufacturing quality medicines in India. Next logical culmination was establishment of a manufacturing unit way back in 1986. We were among the pioneers to introduce Patent formulations and Homoeopathic cosmetics. Soon after the success of Patent formulations the full range of generic medicines was introduced. Today we provide widest range of Mother Tinctures, Dilutions, Triturations and Generic Ointments.
