Welcome to Medilux Laboratories

Medilux Laboratories has been providing quality back-end support to the pharmaceutical industry at large since our inception in 1988. Our resources are dedicated to promoting better health through products that offer superior value. Located at Pithampur, Madhya Pradesh, Medilux Laboratories has been committed to strategic research, delivering a complex range of chemistries that are globally benchmarked. Our products and services are rapidly making strides in the global pharmaceutical space, giving us the impetus to constantly strive for excellence in addition to providing quality customer service. Our services and products undergo constant research owing to years of experience in this space. Our ability to constantly upgrade our services and products, which include offering APIs for the regulatory market, has been one of the key reasons why our clients keep renewing their confidence in us. As an ISO 9001:2008 certified company, we have the added responsibility of adopting stringent methods and practices that cement our position as provider of quality back-end support to the pharmaceutical industry. We also adhere to ICH Q7 guidelines. Additionally, we are a 100% export oriented unit.
