## Welcome To Medisynth

Medisynth Chemicals has a legacy that is unmatched because it began with a story of benevolence. The company's founder, the Late Manjunath Vaknalli started a pharmacy in Mumbai to provide safe and inexpensive homeopathic medicines to the working class of the city. This initiative was very successful and gained popularity rapidly. And the next generation expanded this successful homeopathy enterprise by setting up a manufacturing unit, which was one of the first homeopathic units in Mumbai.
