Welcome to Natnov Bioscience Pvt. Ltd.

NatNov Bioscience was established in 2021 and a fastest growing company which is dedicated to producing and exporting high-quality chitin and chitosan with various grades. We launched our company with the knowledge and excellent services. This sparked our expansion both domestically and internationally. Currently, we are actively involved in exporting our products to several nations across the world, including the Thailand, Israel, Malaysia, Singapore, South Korea, Canada, and the USA. We provide excellent B2B coverage of the domestic and international markets.
