Welcome to Nivian Pharma

Unless you dream, you’re not going to achieve the desired outcome, and we aim to keep pushing forward and spreading infertility medicines across India. Nivian Pharma is founded by Mr. Nilesh Auti in March 2019. We aim to grow and build a stronger portfolio of medications to cater to everyone in the infertility segment. We are distributors of infertility medicines and now we have a portfolio of 20+ Medications which includes injections, capsules, and many more. Our medicines are catered to Gujurat, Maharashtra, Madhya Pradesh, and Goa. We do not compromise on our quality of drugs, we have a firm belief that compromising quality means compromising success rate. Nivian has partnered up with well-reputed manufacturers and we strive to spread across India and build our portfolio of medications.
