## Welcome to Nuevomed Organics

Nuevomed Organics established in 1998 with an objective of representing leading manufacturers of generic pharmaceutical medicine in India. Nuevomed Organics represents a dynamic and fast growing group of companies, including importers and exporters. We are a global marketing company with constant diversification and expansion which has resulted in creation of large clientele in domestic and international markets thus making it a contributing factor for the high turnover rate which rose by 400% in the last decade. The products are manufactured as per the international quality standard under their qualified high-calibre technical personals. The products that we provide are the most competitive and cost effective with utmost focus on quality in Product Development Department. The organization is dedicated to provide high quality formulations under all parameters of medicines. Nuevomed Organics continuous efforts on the present and future needs of market are dedicated to meeting the customer requirements and satisfaction levels through consistent development of Technology and Quality
