Welcome to Omgene Life science Pvt. Ltd.

Omgene Life Sciences Private Limited, is a R and D based Biopharmaceutical Research Company, incorporated in March 2011 and is operating for around 12 years in bio pharmaceutical space, established by a highly skilled and experienced Technocrat working in Pharmaceutical field, Dr. A.L. Prasad (Founder, Promoter and Managing Director), who leads the R&D team having around 30 years of industrial track-record and has a team of 90+ highly skilled workforce. Since Inception, Omgene is a vertically integrated company, which has focused on producing Bio-pharmaceuticals, Peptides, Semi-synthetics and Synthetics Actives and formulation based on In-House produced actives. We are also producing and have commercialized number of

Actives from our In-house GMP manufacturing facilities and through collaboration and in partnership with numerous Contract manufacturing facilities. We are also actively involved in formulation development of Injectables, Lyophilized injectable, complex generics and Solid oral and oral peptide delivery to provide affordable and high-quality medicines. Its always our commitment to innovate and deliver.
