Welcome to Oscar

Over the last three decades we have had the opportunity to get to know each other and confirm that fragrances are a passion we all share. At Oscar, we understand the emotive power of scent. It can unlock memories and open doors; it can stop us in our tracks, lost somewhere for a moment in time. Our fragrant adventure began in the year of 1985 and carries us into the future as we strive to create original scents for the discerning eccentrics of today. We are a 100% natural perfume company embracing the finest botanical ingredients from around the world. We shall continue to guide you on a journey through time, scents, senses and blends in an atmosphere of splendor and glamour. Every time we introduce new products we want to be able to match your needs. We have introduced various new fragrances to our classic collection, the collection that has been with us since the beginning.
