Welcome to Pacific India

Third Party Manufacturer in Baddi - Pacific India is one of fast growing pharmaceutical Manufacturing companies Located at Baddi, Nalagarh(H.P) committed to providing innovative, quality and affordable medicines for healthier life, We maintain the highest standards of quality; the products meet relevant pharmacopeial standards and statutory requirements. In addition, the company ensures that all the steps involved in design, development and manufacture of a product leads to the intended level of quality performance in the market. We are one of the leading third party manufacturers, suppliers and exporters of a variety of Pharmaceutical Medicines like Tablets, Capsules, Syrups,

Dry syrup & Dry Injections, etc., which is applicable to cure various diseases. With a 15 year history distributing and manufacturing drugs, peaking with the manufacturing of 1000 million tablets, 200 million capsules, 50 million oral liquid and 10 million of beta lactum dry syrups, dry injections , we projected that the manufacturing of drugs would move to the country resulting in intense commodity price and profit deterioration. Thus, we formed our branded and technology division and have directed most of our R&D budget towards new branded product development since then. There are number of pharmaceutical companies which do not have their own manufacturing unit, so that companies are associated with us for third party pharma manufacturing services. While we continue to leverage our 5 years of manufacturing experience for selected new product opportunities and authorized sales, marketing, and distribution for brand companies, our emphasis has clearly shifted towards our branded and technology pipelines. So we are top third party manufacturing company in India. If you have plan to outsourcing the manufacturing work feel a free to contact us any time.
