Welcome To Panm Labs (India)

We are Panm Labs India, an established manufacturer and supplier of pharmaceutical products based at Sirmour, Madhya Pradesh, India. Our range of products includes Analgesic Tablets, Antibiotic & Anti-infective Tablets, Anti-infective Injections, Gastro / Anti-emetic / Anti-ulcerant Tablets and Haematinic Tablets, all of which enjoy a good demand in the market. We started operations in 2000 and have added new molecules regularly to our repertoire, accompanied by necessary additions to our infrastructure as well. India has a vast geographical area and a burgeoning population to match it. However a significant proportion of this population lives in a poor condition, which puts considerable stress on national commitments like healthcare and health education. As a nation we are constantly faced with health issues and the challenge of keeping abreast of new developments, hence quality resources in the medical field have been a constant social need. It has been our primary concern to join hands in this crusade and make Indians a healthier people through effective & affordable medication. Today, we are pleased to state that we are firmly on this path of national importance by making bulk supplies of our products to government and private institutions alike.With Mr. Naveen Jain leading our company from the front, we have steadily expanded our presence across the country. Over the years we have also garnered prestigious international certifications of compliance to established industry standards. Armed with these, our company is presently making forays into overseas markets through supply of formulations and generics.
