Welcome To Qraa Herbal

Qraa Herbal is India's leading natural cosmetics company. Combining ancient wisdom from the Vedas with 21st century technology. India is well known all over the world for her rich bounty of medicinal and therapeutic herbs and for the 5,000 year old science of Ayurveda that practices the application of these herbs effectively. After many years of meticulous research we came up with scientifically developed products that generate the same powerful effect, in a shorter time and with a longer lasting effect. We believe in actively utilizing herbal ingredients instead of chemical-based, synthetic and cruel animal tested cosmetics. Each of our products contains a combination of extracts of different herbs to protect, heal and enhance the face, body and hair. We follow strict manufacturing processes as per GMP (Good Manufacturing

Practices) and have earned the ISO 9001 (2000) certification as well.
