Welcome To Radicura Pharmaceuticals

Radicura Pharmaceuticals is a family run business currently being managed by third generation entrepreneurs. Radicura's association with the pharmaceutical sectors dates back to the partition in 1947. During this time the family was displaced from the Sialkot region of former Punjab and settled finally settled in Delhi post partition. With the establishment of Radicura and company in 1948 we started our long journey in the sector. After years of dedication and hard work Radicura earned the distinction of having the second highest retail sales in India. Over the years we diversified from retail to wholesale and eventually into manufacturing. The manufacturing facility was established in 1979 and has been continuously upgraded to meet modern manufacturing norms. Currently we have a state of the art facility located in the heart of the national capital. We are equipped with modern machines such as tablet in tablet and alu-alu packaging. We have a separate Beta Lactum and non Beta Lactum section which conform to gmp standards. All aspects of the production are documented as per standard operating Procedures.
