Welcome to Ray Life Sciences

Ray Life Sciences has a fast growing state of the art injectable manufacturing facility located in Hubli, about 400km from Bangalore, India. Backed by Mr Anjan Roy, founder of RL Fine Chem, our aim is to manufacture highest quality injectables and cater to domestic and global markets. The facility is designed to meet WHO and international cGMP guidelines. Our global presence, worldwide network, financial strength and strong research focus make us an attractive partner.
