Welcome to Rini Life Science

Rini Life Science located in Indore, India is a GMP-certified manufacturer of Active Pharmaceutical Ingredients (APIs) and their intermediates. It is widely recognized as one of the largest producers of Glimepiride along with other intermediates and as a result became a global leader in quality and innovation. It was through a well-oiled manufacturing infrastructure and strict compliance with international quality standards that Rini Life Sciences created a history by getting audited and approved by the Japan FDA. Significantly, it was the pioneer in API manufacturing to attain DMF approval from Japan for generic Glimepiride API. It reflects the commitment of the organization to excellence as

well as the trust of customers. The Organization, progressing into the next era of the pharmaceutical industry through development, will bring forth superior lifesaving solutions for upcoming health needs.
