Welcome To R.K's Aroma

R.K's Aroma Shop, a house of rare Indian fragrances, backed by a team of herbalists and chemists, has closely considered the therapeutic values in the selection of natural aromatic oils and presents unique blends of biodegradable health and beauty care products. All ingredients incorporated in our fragrances are natural extracts and certain selected ingredients close to natural sources as alternative to animal-origin fragrances. These are all grown, graded and distilled under the expert directions of highly professional research and development specialists.
