Welcome to ROOTS FORMULATIONS PVT. LTD.

Roots Formulations is a Toll Manufacturing, Ingredient Processing company launched in 2019. However, its lineage goes back three decades – the quantum of time its sister concern anish pharma has been in the business of global pharma process solutions. Roots Formulations is itself a privately-owned nutraceutical manufacturing company located in Nashik, India. Its tryst with quality and service has been driven by one super-objective: To offer the pharma world a state-of-the-art facility that meets every single and latest necessary industry regulation. In every sense, with that goal being consistently met, Roots Formulations has built itself from the ground up! Roots assures its clients high

quality manufacturing without any compromise. Its offerings encapsulate a winning proposition for any nutraceuticals or food company looking to bring a new product to market, or to tweak an existing one. That winning proposition combines clean, efficient and cGMP contract manufacturing with competitive pricing, superior customer service, quick turnaround, concise communication and zero-cost product development support. Roots Formulations always puts the customer first. Its in-house lab, top-of-the-line machinery and experienced formulators ensure speedy, efficient and accurate solutions to customer needs
